

My Face

by Marcia Abbott

My Face, a children's book, explains what a young girl's life is like with a disability, a craniofacial condition called Moebius Syndrome.

It contains 13 clear color photographs and has information and resources for adults at the end of the book. It is intended for children ages 3 to 10, and is ideal for families, schools and professionals who work with children with disabilities.

ISBN: 0-9666097-0-0

"This new book...can teach us all about the ups and downs of a child with a craniofacial difference. Medical terms are explained well, feelings are explored... This could be an excellent addition to any K—5 school program addressing differences."

— Betsy Wilson, Director, Let's Face It

My Face is available from Forward Face, Special Needs Project (www.specialneeds.com) and www.amazon.com
